MANAGEMENT DISCUSSION AND ANALYSIS

Industry Overview

The significant international developments which had ramifications for the Indian economy in FY 2017 were Brexit, new administration in US favouring inward looking trade policies, a historic deal by OPEC and non-OPEC members to cut crude oil production so as to stabilize oil price, slowing of China and increased geo-political concerns. However, indications of improvement in global trade and global growth in FY 2018 augur well for the growth prospects for Indian economy.

FY 2017 witnessed withdrawal of ` 500 and ` 1,000 currency notes (specified bank notes (SBNs) as legal tender, which accounted for 86% of the total value of currency in circulation and subsequent replenishment with new notes of ` 500 and ` 2,000 denomination. The demonetization initiative is expected to have a base broadening impact for GDP notwithstanding the transient dip in economic activity in certain sectors.

The biggest reform in the area of indirect tax, the GST Bill, was passed in the parliament and steps have been taken to ensure its implementation on July 1, 2017. Adoption of GST is expected to be a growth booster by reducing transaction cost, removing the cascading impact of taxes.

Equally, the Insolvency and Bankruptcy code ought to finally create a market for stressed assets; and, all other things being equal, reduced bank lending rates should make borrowing more attractive than before.

Market Scenario

Non-Banking Finance Companies (NBFCs) continued to grow their share in the financial services industry. As per data published by RBI in its Financial Stability Report of December 2016, NBFCs have outperformed Scheduled Commercial Banks (SCBs) on growth in advances and in asset quality.

NonBanking Finance Companies (NBFCs) continue to grow their share in financial services industry.

Against this backdrop, your Company hopes to post reasonable growth in its business and also continue to explore new, profitable business opportunities. Competitive pressures in the retail financing market are likely to remain high, with banks increasingly focussing on retail lending, thereby exerting downward pressure on margins. Growth with Quality and Profitability has been the underlying philosophy that has guided your Company over the years and shall continue to do so in the future as well.

Analysis of performance for the year

The detailed highlights of the performance are produced elsewhere in the Director's Report.

Opportunities and Threats

As an NBFC, STCL is exposed to credit, liquidity and interest rate risk. The Company has invested in people, processes and technology to mitigate risks posed by external environment and by its borrowers. It has in place a strong risk management team and an effective credit operations structure.

STCL has also commenced the identification of various operational risks inherent in its business model. The operational risks are risk of a loss resulting from inadequate or failed internal process, people and systems, or from external events.

STCL continues to evolve on a journey where analytics and technology are integral to business strategy. It uses analytics capabilities for making appropriate product offerings to customers, marketing campaign management, risk management and customer experience.

Internal control system and their adequacy

The Company has an effective internal control system, commensurate with its size and nature to ensure smooth business operation, including assurance of recording all the transaction details, ensuring regulatory compliance and protecting the Company assets from any kind of loss or misuse.

Development in human resources

The Company continues to lay emphasis on people, its most valuable resource. In an increasingly competitive market for human resources, it seriously focuses on attracting and retaining the right talent. It provides equal opportunity to employees to deliver results.

Conclusion

Certain statements in the Management Discussion and Analysis describing the Company's objectives, predictions may be "forward-looking statements" within the meaning of applicable laws and regulations. Actual results may vary significantly from the forward looking statements contained in this document due to various risks and uncertainties.

ANNEXURE 'B' TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Step Two Corporation Ltd. (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Standards on Auditing prescribed under Section 143(10) of the Act and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”), to the extent applicable to an audit of internal financial controls, Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.
