OPERATING PERFORMANCE

The year under review has been the most challenging year for the company on all fronts. The severe economic downturn, liquidity crisis, deterioration in all round business performance in all sectors considerably impacted the company's operation. The company faced serious challenges:

- liquidity was impacted due to the turbulence in money markets and the sudden withdrawal of mutual funds from funding NBFCs;
- substantial increase in cost of funds which could not be passed on;
- a very challenging economic environment;
- turbulent Indian capital market.

The company was deeply affected by the tremendous fall witnessed in the capital market. The economic slowdown prompted the directors to shrink the company's loan financing business.

MANAGEMENT DISCUSSION AND ANALYSIS

Economic Scenario

The year 2008-09 has been an unprecedented year with extremely difficult economic conditions across the globe. Growth momentum dipped significantly for the economies across the world over the past few quarters. Most developed countries are experiencing the deepest recession since World War II.

Government and regulators across the globe have responded swiftly and are trying to arrest the slowdown and to steer their economies back on growth path. These measures have started bearing the desired results by restoring stability and confidence in the markets.

India continues to face numerous challenges at the moment like a slowdown in the industrial production in some sectors, the increasing government deficits and its resulting adverse impact on the interest rates. The government is expected to take adequate measures to tackle these challenges by increasing public investments, maintaining adequate liquidity in the financial system without compromising on the quality of credit.

Business Outlook

Despite the drop in our GDP growth rate, the long-term India story and the opportunities that it will offer across sectors remains intact. In fact, India has already distinguished itself with a positive GDP growth whereas major nations are grappling with negative economic growth or recession.

The financial services sector is expected to grow as the conditions stabilize and start improving, early signs of which are already visible. Meanwhile, though the equity markets operated in a lackluster way with some hope of a revival as seen in first quarter of the current year, the debt markets hold exciting opportunities as they will become the more dominant source of capital for corporates planning for expansion in the future.

Analysis of performance for the year

The detailed highlights of the performance are produced elsewhere in the Director's Report.

Opportunities and Threats

We believe in protecting our capital and safeguarding the health of our balance sheet at all times. We practice an analytically driven approach to assessing, measuring and managing risk. It is this culture of risk awareness and respecting risk that has enabled us to build businesses on a strong foundation and manage the volatility in the year that has gone by.

STCL believes in building a sophisticated information technology platform to meet not only the business needs but also minimize operational risks.

STCL has in place suitable mechanisms to effectively reduce such risks. All these risks are continuously analyzed and reviewed at various levels of management through an effective information system. STCL recognizes the importance of risk management on account of market volatility in Capital Market business.

STEP TWO CORPORATION LIMITED

Internal control system and their adequacy

STCL has adequate internal control systems commensurate with its size and nature of business to ensure operational efficiency, protection and conservation of resources, accuracy and promptness in financial reporting and compliance of laws and regulations. The Audit Committee of the Board reviews the internal control systems and the adequacy and effectiveness of internal controls.

Development in human resources

STCL believes that people are an important reason for our success. Recruiting top talent, developing them and retaining them is fundamental to our strategy.

During the period under review, your Company maintained healthy, cordial and harmonious relations at all levels of management. The company's culture promotes high performance and high professional standards. Your Directors record their appreciation for this hard work and efficiency of the employees & senior management team.

Conclusion

Statements made in this Management's Discussion and Analysis contain certain forward looking statements based on various assumptions on the Company's present and future business strategies and the environment in which it operates. Actual results may differ substantially or materially from those expressed or implied due to risk and uncertainties. These risks and uncertainties include the effect of economic and political conditions in India and abroad, volatility in interest rates and in the securities market, new regulations and Government policies that may impact the company's businesses as well as the ability to implement its strategies.
